

VisqueenPro Single Sided Tape, 75mm x 25m

Features and benefits

- Provides an overlap seal to Visqueen damp proof membranes
- Joint integrity - reduces the risk of poured concrete entering the lap joint

Product description

VisqueenPro Single Sided Tape is a reinforced single sided adhesive tape.

It is available in roll format 75mm x 25m.

Approvals and standards

- Visqueen certified with Quality Management System ISO 9001:2015
- Visqueen certified with Occupational Health and Safety System ISO 45001:2018
- Visqueen certified with Environmental Management System ISO 14001:2015

Usage

VisqueenPro Single Sided Tape is used to seal lap joints on damp proof membranes.

The tape is used in conjunction with VisqueenPro Double Sided Jointing tape which bonds the membranes lap joints together.

VisqueenPro Single Sided Tape, 75mm x 25m

Storage and handling

Store in a dry and clean environment in its current packaging. The tape should not be exposed to long periods of ultraviolet light. Prior to use, ensure that the tape is stored at temperatures above 5°C.

The tape can be cut with a sharp retractable safety knife.

Care should be taken when handling the product in line with current manual handling regulations.

Preparation

Ensure all lap joint surfaces are clean, dry and free from contamination such as dust or sand. Ensure the surface and working area is not water logged. Avoid areas of unsupported jointing.

Installation

After bonding the lap joint with VisqueenPro Double Sided Tape (see separate Visqueen datasheet), apply VisqueenPro Single Sided Tape equidistant over the lap joint. Once the tape is applied, the completed lap should be well rolled with firm pressure to ensure a completely sealed joint has occurred, and continuity with the adjacent sheet has been achieved.

Usable temperature range

It is recommended that VisqueenPro Single Sided Jointing Tape should be installed above 5°C.

Additional information

The information in this datasheet was correct at the time of publication. It is the user's responsibility to obtain the latest version of the datasheet as it is updated on a regular basis. The information contained in the latest datasheet supersedes all previously published editions.

VisqueenPro Single Sided Tape, 75mm x 25m

| Property | Value |
|-------------------------------|-------------|
| Dimensions | 75mm x 25m |
| Application temperature range | 5°C to 50°C |
| Tensile strength | 240N/cm |
| Elongation | 10% |

Health and safety information

Refer to VisqueenPro Single Sided Tape safety datasheet (SDS).

Visqueen Technical Support

Visqueen combine an extensive product portfolio with industry leading levels of service and support which includes guidance over the phone, bespoke CAD drawings to help with complex detailing, electronic NBS specifications and access to a dedicated team of highly knowledgeable and experienced field based Technical Support Managers.

Visqueen Technical Support is available to all our customers including architects, specifiers, distributors, builders merchants, contractors and end users. All of our technical team have been awarded the industry recognised qualification Certificated Surveyor in Structural Waterproofing (CSSW).

Visqueen CPD Seminars

The Visqueen Continuing Professional Development (CPD) Seminars provide up-to-date information on changes within Building Regulations/Building Standards and nationally recognised industry guidance affecting damp proofing, water vapour control, hazardous ground gas protection and below ground structural waterproofing.

The one hour seminars have been produced for design specialists within the construction sector and are delivered by our team of Technical Support Managers.

Visqueen Training Academy

Based at our manufacturing facility in Derbyshire, the Visqueen Training Academy is available to support Visqueen customers throughout the UK by providing a wide range of both theory and practical skills related training.

Courses include one day product awareness training for our distributors and builders merchants to help them in their day-to-day jobs, through to intensive three day courses giving detailed hands-on training in the practical skills required for safe and robust product installation.
