"We have been developing products and sealants for the professional user at our UK manufacturing base for nearly 160 years, and are proud of our traditional values. We continue to work with a variety of customers to produce solutions to individual requirements and projects, offering a unique flexibility of approach that delivers sealant solutions that work in the modern environment"

Over 150 Years of Excellence.

Adshead Ratcliffe & Co Ltd was founded in 1859 and is proud of its long-established British manufacturing base.

Our mission is to develop and offer to customers a quality range of products backed up by high levels of service – both via sales representatives in the field and the Production and Administrative Teams in our HQ and Distribution Centres.

Based in Belper, Derbyshire, we are recognised as one of the most successful and growing business in the region. We have a philosophy of innovation, and have our in-house Research and Development facilities with our laboratory, alongside extensive manufacturing and training facilities, that make the Company well positioned to respond to customer needs and market requirements. Our products are manufactured to quality standards recognised within the UK and globally.

We are regarded as the premier manufacturer of sealants, and our products are sold under the leading ARBO® Brand containing a range of sealants for the professional user, together with the extensive range of EPDM products marketed under the ARBO® Façade Solutions brand. We continue to invest in our people and products, and are committed to supplying quality products manufactured to exacting standards, to our many customers nationally and internationally.

In early 2017, Adshead Ratcliffe & Co became part of CARLISLE® CM Europe following the acquisition by the US group CARLISLE® Companies Incorporated. The CARLISLE® CM Europe group is Europe's leading waterproofing and sealing solutions provider for roofs, façades, and buildings. The umbrella brand CARLISLE® CM Europe unites the trusted brands ARBO® RESITRIX®, HERTALAN®, ALUTRIX®, HARDCAST® and ECOLAN®

Our ARBO® brand sealants are respected throughout the building, glazing and construction industries by architects specifiers and contractors, and with specialist products available for marine, automotive and industrial sectors our customer base is wide.

As a dedicated sealant manufacturer we are able to supply products to meet virtually any requirement and our in-house research and development facilities are able to tailor-make sealants for more specialised applications and for colour matching to order.

COMMITMENT TO QUALITY

Our ongoing commitment to quality is reflected in our ISO 9001:2015 and ISO 14001:2015 certifications, together with our work with BSI to ensure standards are maintained. Working closely with a wide range of specifiers such as Architects, Surveyors and Local Authorities, we follow projects from the early stages of design right through to completion with Sealants Applicators, then if required as part of the Arbomaster Warranty Scheme, we carry out on site inspections of applied sealants.

Service

CUSTOMER SERVICE

DIRECT TELEPHONE LINE:

01773 826661

Our friendly staff are committed to giving you the highest levels of service and most products are available ex-stock.

Next day deliveries can be arranged in conjunction with our logistics partners, with normal delivery within 48 hours.

TECHNICAL SUPPORT

DIRECT TELEPHONE LINE:

01773 596301

Technical queries and written specifications are available through our technical support line, with our highly trained and experienced staff able to answer any questions.

Our testing facilities are also available to assess the suitability of sealants against specific substrates to ensure compatibility and performance.

Striving to better meet industry needs, our website www.arbo.co.uk provides desktop advice for architects and specifiers, assisting sealant selection. Detailed technical data sheets are also available on our website at: www.arbo.co.uk

SALES SUPPORT

Our field sales team covers the entire UK and is pleased to visit and advise customers on the selection and availability of our products – this includes site visits and tool box talks when appropriate.

CONTINUOUS IMPROVEMENT

The culture of our company is one of continuous improvement and the specification of our products will evolve in response to technological advances, research and development and environmental factors.

ARBO

FAÇADE SOLUTIONS

ARBO® Façade Solutions have developed their own EPDM system to seal internally between window frames and a variety of substrates with high quality EPDM utilising solvent free adhesives. This green system helps the building achieve Document L.

This important detail can no longer be ignored. Responsible fabricators and installers are being asked by main contractors 'to seal that gap'.

Legislation is going to get tougher in the future, and your clients will be expecting you to provide a robust solution at this detail for certification of the building. We can help by specifying and carrying out site visits to ensure successful completion of contract.

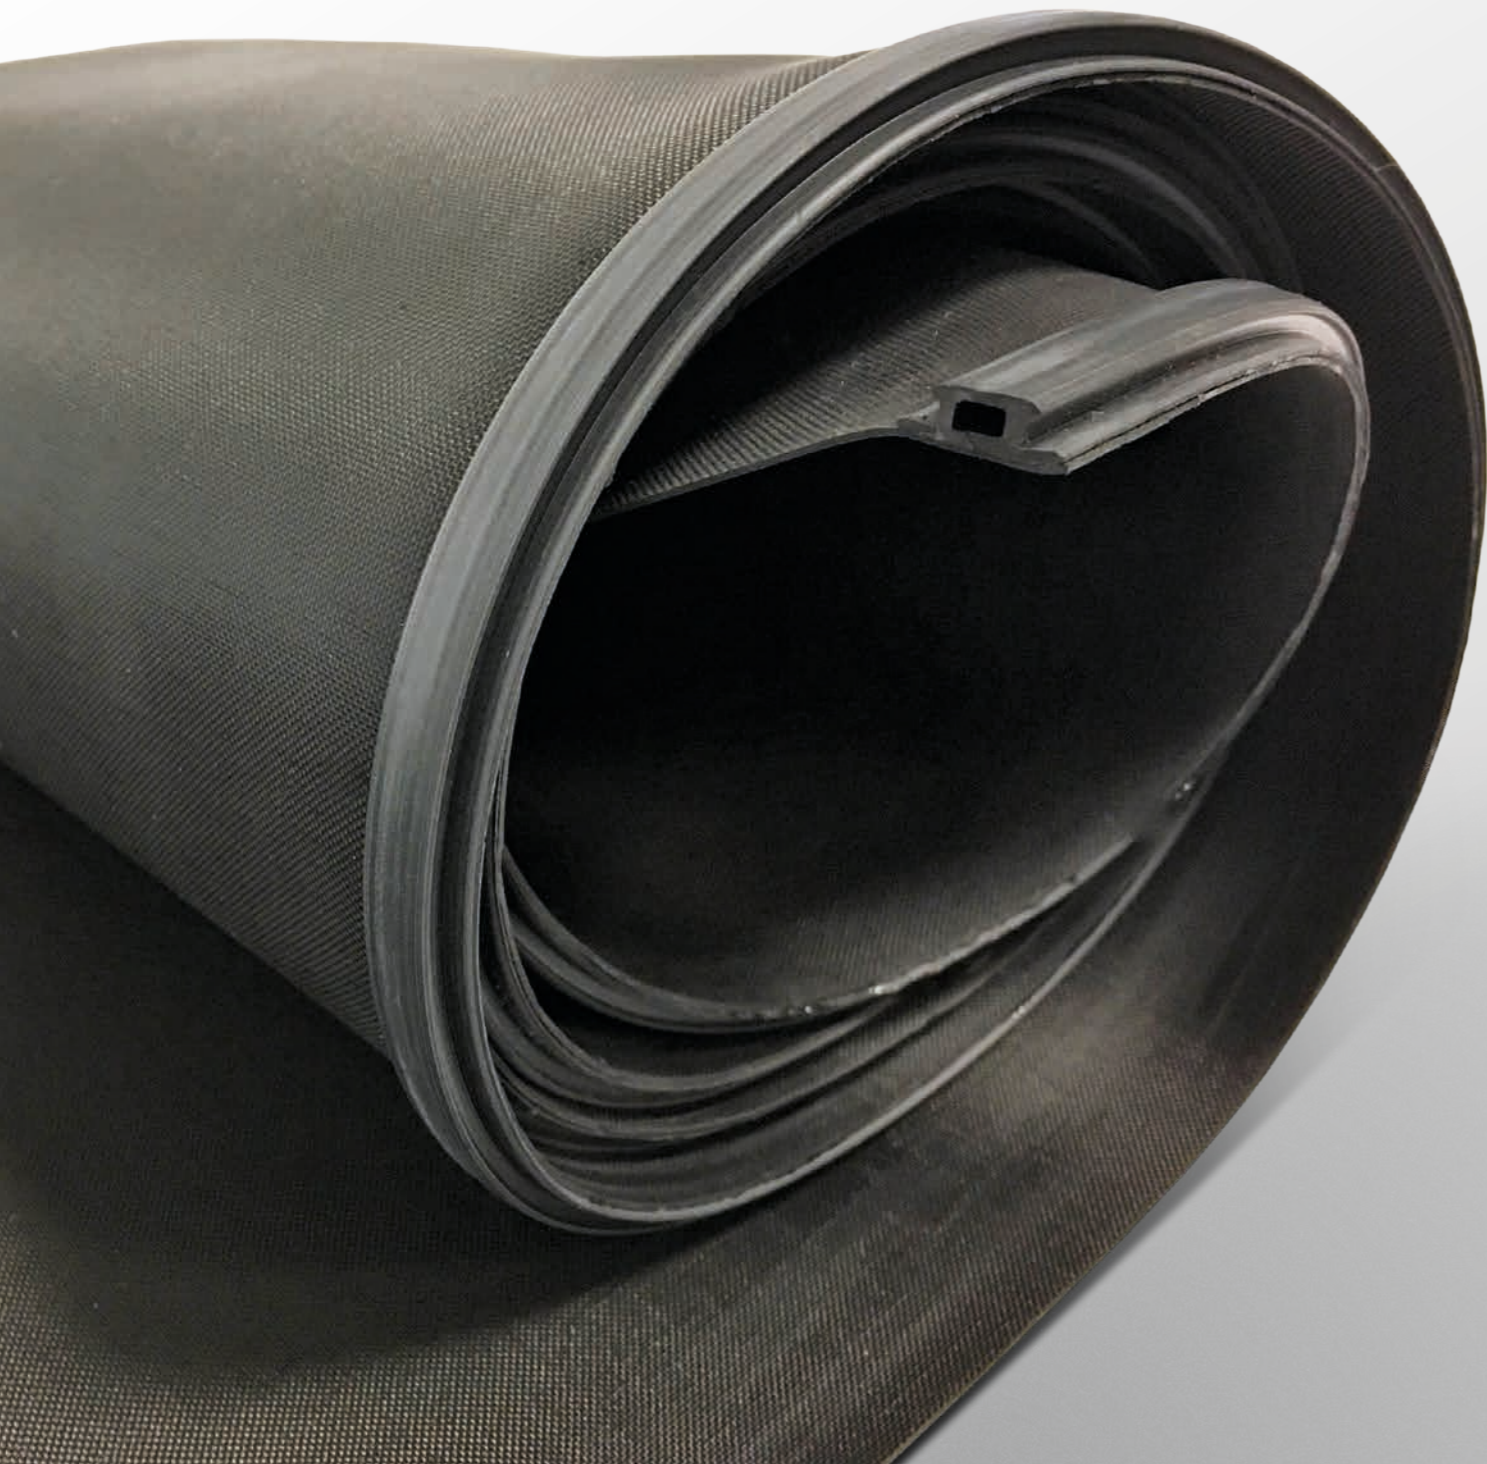

Arbo Façade Solutions EPDM System provides the following key advantages:

- It is clean, green and easy to apply
- Easy factory or site application
- No fumes
- No smell

For further information and quotes contact Arbo Façade Solutions on **01773 826661** or email: arbo@arbo.co.uk

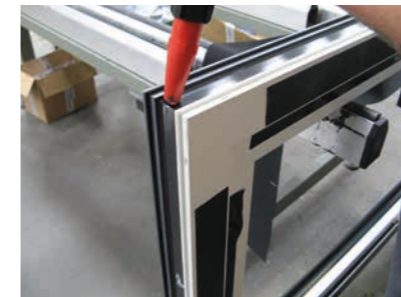

ARBO® EPDM MEMBRANE SYSTEM

TO REDUCE HEAT AND AIR LEAKAGE FROM A BUILDING

ARBO® EPDM MEMBRANE SYSTEM

Following the introduction of Document L, it has become a requirement to provide a robust seal to the internal interfaces between different façade components of a construction. The purpose of this seal is to reduce heat and air leakage from a building and to help prevent interstitial condensation. To aid rapid construction techniques, contractors demand that a building is made substantially waterproof as early as possible during construction. The use of the ARBO® EPDM system plays an important role in achieving this aim.

EPDM MEMBRANE AVAILABLE IN SIZES FROM 100 mm TO 1.4 METRE WIDE (IN 50 mm INCREMENTS)

ARBO® BUTE AL-BAND 50 mm, 75 mm, 100 mm
10 m ROLL WIDTHS

ARBO® SA ADHESIVE 600 ml Foils

ARBO® MEMBRANE ADHESIVE 600 ml Foils

EPDM ROLLER 100 mm wide

EPDM ROLLER 150 mm wide

HAND BARREL FOIL GUN

ARBO® 2650 PRIMER 500 ml tin

AFS PRIMER 1 Ltr tin

ARBO® TERMINATOR STRIP 25 x 3 metre pack
18 mm x 3 mm

ARBO® INSTANT EPDM 100 mm - 1 m wide

ARBO® PROFILED EPDM 100 - 300 mm wide

ARBO® BUTYL STRIP EPDM 100 - 300 mm wide

ARBO® CONTACT ADHESIVE 4.2 kg tin

Allow one 600 ml foil 8-10 metres of epdm for widths up to 150 mm
Thickness of Membrane 0.75 mm
Length of Roll 25 metres
EPDM is also available in 1 mm and 2 mm thickness

ARBO® XPANDA 600 EXPANDING FOAM TAPE

EXPANDING JOINT SEALING TAPE

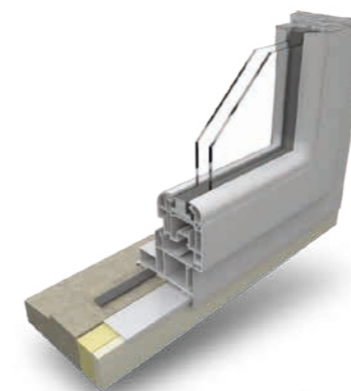

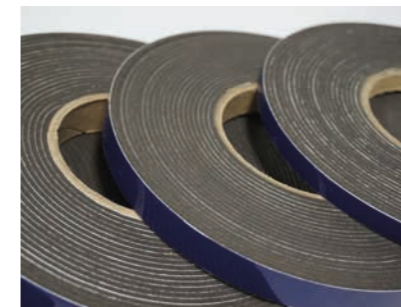

ARBO® XPANDA 600 expanding foam tape

ARBO® XPANDA 600 is an expanding foam tape (with a unique combination of a resilient foam and a water resisting binder), which combine to produce a “dry” pre-formed strip seal used to resist weather ingress in fenestration, roofing and construction applications. The result is a weather resistant sealant for water/air tightness, thermal insulation and noise control.

PRODUCT SPECIFIC PROPERTIES:

- Expanding joint sealing tape
- Resilient foam with water resisting binder
- Preformed strip seal to resist weather ingress in fenestration, roofing and construction applications
- BBA Approved
- Noise and vibration damping
- Easy installation
- At 10 % compression – Soundproofing and anti vibration
- At a minimum of 50 % compression – Thermal insulation and dust particle insulation
- At 75 % compression – Water resistance (after 75 % compression the performance of the joint improves)
