

## An ecological rinsing agent with a high cleaning property for polyurethane injection pumps.

---

### APPLICATIONS

---

- Cleaning of injection and spraying equipment.
- Removal of non-reacted polyurethane resin.

### PROPERTIES

---

- Mixture of sulphide acid esters.
- Replaces acetone, methylene chloride and other organic solvents.
- Low vapour pressure at room temperature.
- Non toxic.

**PACKAGING**

	<b>WEIGHT</b>
Jerry cans	10 kg

**TECHNICAL DATA (Typical values)**

Colour	Light yellow liquid
Density (20 °C)	1.05 kg/l
High flash point	~ 225 °C

**PROCESSING**

**Application**

- Depends on the application and the pump.

**Consumption**

- Clean the apparatus thoroughly with pure PC® Ecoclean.

**PRECAUTIONS AND SAFETY RECOMMENDATIONS**

- Avoid contact with the skin and eyes.
- Wear appropriate clothing, gloves and safety glasses.
- More information on the SDS.

**STORAGE**

**Shelf life**

Minimum 1 year.
